We reviewed the maps and made edits to prepare them for digitizing. The scenic value group is concern for the digitizing. There is are places where there is a view and there are places that are seen. Some of the identified scenic areas include much of the town. We will see how the mapping goes and make decisions about how finalize these areas.
6. Class 4 Roads- review Committee comments (and statute references), prepare draft for presenting to Selectboard
The Class 4 Road Committee reviewed the draft and made comments on the draft. Laura has made changes based on comments from the committee and included the comments in the draft we reviewed. A document including most of the citations was also included for information at the meeting. Both definitions are to be kept as is. The alternative language for Use and Rights of Way will be used. Maintenance #1: we will keep the explanatory language in and leave it to the Selectboard to decide.
